

```
#include<stdio.h>
int add(int a, int b);
int main() {
    int num1, num2, sum;
    printf("enter two numbers: ");
    scanf("%d %d", &num1, &num2);
    sum = add(num1, num2);
    printf("Sum = %d\n", sum);
}
int add(int a, int b) {
    return a+b;
}
```
